Steeda Billet 03 Cobra Idler Bracket and Pulley Instructions for 555-3340 1. First remove the factory supercharger/pulley cover. Remove the 10mm nut at the top of the cover. Next remove the two 8mm bolts at the bottom of the cover, see picture # 1. Remove the cover. *The cover will not be reused.* 2. Once the cover is removed you need to remove ...

Steeda Billet 03 Cobra Idler

1. Belt Tension is Important. The serpentine belt system on the 2003-2004 Cobra is designed to operate at a specific tension. The factory belt tensioner has a carefully-engineered spring mechanism to maintain the designed tension on the belt. The use of a manual belt tensioner or an incorrect belt length can lead to improper tension on the belt.

How To Change The 2003-2004 Cobra Pulley Belt

These are the many different belts needed for the 03-04 Cobra Terminator. These belts are stronger than the standard black belts and are used for their lack of belt slip, stretching and breaking. The Gates Fleet Runner Belts are Heavy Duty and are most commonly used in Diesel Truck Applications. Find Similar Products by Category.
