requirements applicable to stainless steel weldments subject to design stress. It shall be used in conjunction with any complementary code or specification for the design or construction of stainless steel weldments.

Structural Welding Code—Stainless Steel

AWS D1.6/D1.6M-2017 is the third edition of the stainless steel structural welding code, and it revises and supersedes the 2007 publication. Because of this, there have been many changes to the latest version of the standard, including editorial alterations, harmonization with other voluntary consensus standards, and even technical updates.
