Company Law Theory Structure And

Company Law: Theory, Structure and Operation is the first United Kingdom law text to use economic theory to provide insights into corporate law, an approach widely adopted in the United States. In this book, Brian Cheffins discusses the inner workings of companies, examines the impact of the legal system on corporate activities, and evaluates the merits of governmental regulatory strategies.

Company Law: Theory, Structure, and Operation: Cheffins ...

The primary purpose of most company law texts is to classify, categorize, and define legal rules. This book stakes out a different ground. It draws on economic theories and concepts to provide a conceptual framework which does two things. First, it offers insights for the reader who wishes to understand the inner workings of companies and is seeking to learn more about the impact of the legal system on corporate activities.

INTRODUCTION TO COMPANY LAW

Company law theory Ronald Coase has pointed out, all business organizations represent an attempt to avoid certain costs associated with doing business. Each is meant to facilitate the contribution of specific resources - investment capital, knowledge, relationships, and so forth - towards a venture which will prove profitable to all contributors.

Corporate law - Wikipedia

A company is a "corporation" - an artificial person created by law. A human being is a "natural" person. A company is a "legal" person. A company thus has legal rights and obligations in the same way that a natural person does. 2. Companies and Partnerships Compared (a) A company can be created only by certain prescribed methods - most
