There are four main theoretical concepts that drive the study of European identity: •European identity and identification with Europe. Identity has an individual component of active choice coupled with a collective component where individuals orient themselves to one or more aggregate groups or collectivities.

Fligstein - Oxford University ...

The European Union has produced a remarkable set of agreements to guide the political interactions of countries across Europe in the past forty-five years. These agreements have produced collective rules governing market transactions of all varieties, created a single currency, established a rule of law that includes a European court, and promoted increased interactions for people who live ...
