Amazon.com: Go Programming Language, The (Addison-Wesley ...

Go is a simple language to learn, so I was able to squash bugs and ship new features immediately; but this book really helped flesh out the gaps in my knowledge. If you have some experience programming but are new to Go (or want to dig deeper), this is the one to get. If you are new to programming, I would approach this with some trepidation.

Amazon.com: Customer reviews: Go Programming Language, The ...

Go is a new programming language, fostered by Google. It's designed to be radically simple. It's like they took C, notoriously one of the smallest, simplest languages ever created, and REMOVED things. For example, there are no while loops, and no preprocessor.

Go Programming Language, The | InformIT

The Go Programming Language by Alan A. A. Donovan and Brian W. Kernighan (Addison-Wesley Professional Computing Series) This fine—though admittedly terse—book should be near the top of your list on the way to Go enlightenment. It is to Go what The C Programming Language was to C (No kidding, C is the grand-daddy of Go.)
