Land Rover Defender Engine

The biggest change to the Land Rover came in late 1990, when it became the Land Rover Defender, instead of the Land Rover 90 or 110. This was because in 1989 the company had introduced the Discovery model, requiring the original Land Rover to acquire a name. The Discovery also had a new turbodiesel engine, the 200TDi.

Land Rover Defender - Wikipedia

Badged P400e, it uses the same combination as other Land Rover hybrids - a 2.0-litre, four-cylinder petrol engine paired to an electric motor. They combine for a total of 404hp, and the Defender is capable of covering up to 27 miles on electric power alone.
