**What Is Agile Leadership? - Center for Agile Leadership®**

What Agile Leaders Do? Agile Leaders focus on three things: (1) they create and nurture a culture in which experimentation and learning are embraced; (2) they collaborate with employees (at all levels in the organization) to find common values to create a greater goal for the company and the teams; and (3) they create an organizational structure that reinforces and rewards the other two dimensions.

**What Do Agile Leaders Do? | Scrum.org**

Agile leadership is a new leadership style that comes as an alternative to the past’s top-down management styles. Agile leaders create a safe-to-fail environment that fosters a culture of transparency, inspection, and adaptation.

Agile leadership requires a much more adaptive leadership style: A good leader doesn’t have one well-defined style of leadership that he/she force-fits all situations to. A good leader recognizes that different styles of leadership are needed in different situations. That’s what “situational leadership” is all about.

**Agile Leadership Practices - What Is Different?**

Agile leadership means valuing the ability to try out new things one at a time to improve your team’s work speed and execution. However, this goes beyond process automation—leaders must also inspire creativity and innovation from their employees, as these are essential in propelling the company forward.
