Where Modern Macroeconomics Went Wrong
Where Modern Macroeconomics Went Wrong. Joseph E. Stiglitz. 1. Dynamic Stochastic General Equilibrium (DSGE) models, which have played such an important role in modern discussions of macroeconomics, in my judgment fail to serve the functions which a well-designed macroeconomic model should perform. The most important challenge

Where Modern Macroeconomics Went Wrong
This paper provides a critique of the DSGE models that have come to dominate macroeconomics during the past quarter-century. It argues that at the heart of the failure were the wrong microfoundations, which failed to incorporate key aspects of economic behaviour, e.g. incorporating insights from information economics and behavioural economics.
